

## MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2022

(Expressed in US dollars)

#### INTRODUCTION

The following Management Discussion and Analysis ("MD&A") dated November 25, 2022, discusses the financial condition and results of operations of Majestic Gold Corp. (TSX-V: MJS) ("Majestic" or "the Company") for the nine months ended September 30, 2022. The MD&A should be read in conjunction with the accompanying unaudited condensed consolidated financial statements of the Company and notes thereto for the nine months ended September 30, 2022 (the "Financial Report").

The financial information in this MD&A is derived from the Company's financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") and all dollar amounts are expressed in US dollars unless otherwise indicated.

This discussion focuses on key statistics from the unaudited condensed consolidated financial statements for the nine months ended September 30, 2022, and up to the date of this MD&A and pertains to known risks and uncertainties relating to the gold exploration and development and mining industry. This discussion should not be considered all-inclusive, as it excludes changes that may occur in general economic, political, and environmental conditions.

Additional information relating to the Company is available on SEDAR at <a href="www.sedar.com">www.sedar.com</a> and on the Company's website <a href="www.majesticgold.com">www.majesticgold.com</a>.

#### **SELECTED OPERATIONAL HIGHLIGHTS**

Three months ended September 30, 2022

- *Gold production* increased by 139% to 9,853 ounces, from 4,125 ounces produced for the FY2021 comparative period;
- **Gold revenue** was \$15.8 million, an increase of 63% from \$9.7 million for the FY2021 comparative period;
- Gross profit from mining operations increased by 53% to \$8.9 million, from \$5.8 million for the FY2021 comparative period;
- Net income was \$5.1 million, an increase of 179% from \$1.8 million for the FY2021 comparative period;
- Adjusted EBITDA was \$9.4 million, compared to \$3.5 million for the same period in FY2021. For EBITDA computation details, refer to pages 15-17 of the MD&A for this Non-IFRS financial measure;
- **Total cash costs and all-in sustaining costs** ("AISC") were \$580 per ounce and \$726 per ounce, compared to \$693 per ounce and \$872 per ounce for the same period in FY2021; For AISC computation details, refer to pages 15-17 of the MD&A for this Non-IFRS financial measure.

Nine months ended September 30, 2022

- *Gold production* increased by 160% to 29,717 ounces, from 11,412 ounces produced for the FY2021 comparative period;
- Gold revenue was \$49.2 million, an increase of 102% from \$24.4 million for the FY2021 comparative period;
- **Gross profit** from mining operations increased by 112% to \$26.9 million, from \$12.7 million for the FY2021 comparative period;
- **Net income** was \$16.4 million, an increase of 109% from \$7.9 million for the FY2021 comparative period;
- Adjusted EBITDA was \$28.3 million, compared to \$10.7 million for the same period in FY2021. For EBITDA computation details, refer to pages 15-17 of the MD&A for this Non-IFRS financial measure;
- Total cash costs and all-in sustaining costs ("A/SC") were \$629 per ounce and \$775 per ounce, compared to \$717 per ounce and \$928 per ounce for the same period in FY2021; For AISC computation details, refer to pages 15-17 of the MD&A for this Non-IFRS financial measure; and

• On August 25, 2022, the Company provided a further update, to its March 30, 2022 news release, that the Company was still in the application process and currently responding to queries from the HKEX and Securities and Futures Commission. On March 30, 2022, the Company announced that its 94% owned subsidiary, Persistence Resources Group Ltd. ("PRG") (formerly known as SINOGOLD Resources Holdings Group Co., Ltd., has submitted its application for listing of shares in the capital of PRG (the "Shares") on the Main Board of The Stock Exchange of Hong Kong Limited (the "HKEX") concurrent with the proposed initial public offering of newly issued Shares of PRG representing 25% of its total issued and outstanding Shares upon successful listing of the Shares.

#### 2022 OUTLOOK

- The Company's continues working through the HKEX listing application due diligence process with the
  expectation of successfully completing the proposed initial public offering of the Shares of PRG;
- The Company looks to continue increasing its production through the ongoing expansion of the SJG Open-Pit Mine:
- The Company is planning a phase 2 exploration work program on the Australian tenements held under a LOI;
- The Company's future growth strategy is to pursue potential property acquisitions, as well as exploring other development and growth opportunities.

#### **DESCRIPTION OF BUSINESS**

Majestic is a Vancouver, Canada based gold producer with mining operations in China and exploration and evaluation properties held directly or under option agreements in Australia, and Canada. The Company's main business involves the acquisition, exploration and development of mineral properties. At September 30, 2022, and at the date of this MD&A, the Company's mineral property interests and mining operations are located in China, with the Songjiagou Gold Mines as the Company's flagship project as well holding directly or under options on early-stage exploration properties in Australia and Canada. The Company is a TSX Venture Exchange Tier One listed mining company trading under the symbol "MJS".

#### **SONGJIAGOU GOLD MINES**

The Company's principal gold mining operations are the SJG Open-Pit Mine and the SJG Underground Mine located in Shandong province, China. The Company commenced commercial gold production at the SJG Open-Pit Mine in May 2011. Majestic holds its 75% interest in SJG Project through its 94% owned subsidiary Persistence Resources Group Ltd. indirectly. The remaining 25% of SJG Project is held by Yantai Dahedong Processing Co. Ltd. The Company's mining licenses for the SJG Open-Pit Mine and SJG Underground Mine are valid until May 17, 2031 and February 18, 2031 respectively.

#### **RESOURCES FOR SJG OPEN-PIT MINE**

The Company filed an amended technical report titled "Independent Technical Report of Songjiagou Project, Shandong Province, The People's Republic of China" (the "Amended Report") dated January 19, 2016, as prepared by SRK Consulting (China) Ltd. ("SRK").

The Amended Report is an amendment of the initial technical report in support of the Preliminary Economic Assessment ("PEA") for the Songjiagou Gold Mine dated August 2, 2013, and prepared by SRK Consulting (China) Ltd. The Amended Report is available under the Company's profile on SEDAR at <a href="https://www.sedar.com">www.sedar.com</a>.

A PEA should not be considered to be a prefeasibility or feasibility study, as the economics and technical viability of the Songjiagou Project have not been demonstrated at this time. A PEA is preliminary in nature; it includes inferred mineral resources considered too speculative geologically to have the economic considerations applied to them that would enable them to be categorized as mineral reserves; there is no certainty that the preliminary assessment will be realized.

#### SJG UNDERGROUND MINE

The SJG Underground Mine lies immediately north of the SJG Open-Pit Mine. The area underlain by precious metal mineralized vein structures was converted to a five-year, 0.414 sq. km. mining license that was granted

on February 18, 2016, was renewed on February 18, 2021 and is valid until February 18, 2031. The mining license area covers a continuation of the gold mineralization that is currently being developed in the adjacent SJG Open-Pit Mine. The Company commenced production at SJG Underground Mine in October 2019.

Majestic's subsidiary – PRG has commissioned SRK to update technical report for SJG project in 2021. The report is near finalization, Majestic shall file it in due course of time.

#### **EXPLORATION**

### Australia - Four Tenements in Western Australian

On June 15, 2021, the Company entered into a letter of intent ("LOI") and an amended LOI on December 15, 2021, with Western Explorers PTY Ltd., a private Australian corporation, to acquire a 65% interest in four separate tenements located in Western Australia, an area with demonstrated potential for the discovery of lithium oxide mineralization.

The Company has completed its technical review of the tenements as well as conducted some preliminary exploration work on the Leonora Tenement. The Leonora project area is mostly covered by Tertiary and Quaternary alluvium and colluvium, and the depth of which is thought to be 5-15 metres over most of the area. A wide-spaced grid comprised of seven east-west lines spaced 200 metres apart were sampled on 100 metre stations, collecting a total of 62 samples using an auger to drill to about 50 cm holes and collect samples from the bottom of each hole. Results from this program confirm a northwest trending lithium anomaly coincident with elevated rubidium and potassium in the southwestern portion of the grid. Samples returned up to 24.3 ppm lithium, 70.5 ppm rubidium, and 1.35% potassium, confirming the results from the state government regional survey.

The Company intends to follow up this program with a phase 2 program consisting of closer spaced grid geochemical sampling and a ground magnetometer survey in order to better define targets for a possible phase one drill program.

#### Tenement E36/918

This tenement has been granted and consists of 2 blocks located 150 kms North of Leonora, about 50 kms north of Leinster, along the east side of the Kathleen Valley. The property is prospective for both lithium and tantalum and is underlain by the Norseman-Wiluna Greenstone Belt, within the Archaean Yilgarn Craton in Western Australia. Lithium mineralisation is hosted within spodumene-bearing pegmatites, which are part of a series of rare-metal pegmatites that formed at the edge of granite as well as within the greenstone belt in the region. Three kms to the west is Liontown Resource's Kathleen Valley project which has several mineralised pegmatites which are formed with in the structure of the greenstone belt and have been modelled at the Kathleen Valley hosted by two outcropping northwest trending pegmatite swarms.

#### Tenement E37/1334 (Leonora)

This tenement has been granted and consists of six blocks located west of Leonora township, 230 kms North of Kalgoorlie and 700 kms northeast of Perth, in the Goldfields region. The project is in the Yilgarn craton granites on the West side of the Wiluna-Norsman structure. Lithium mineralization is formed along the periphery of the granite, at the edge of the greenstone belt. Although there is no outcrop of pegmatite in the tenement area, gold mining in the area by Sons of Gwalia Mining encountered pegmatites in their diggings. North trending fault structures splaying off the main Wiluna-Norsman structure will be prospected for lithium rich pegmatites in a first-pass program.

#### Tenement E63/2110 (Kumarl)

This tenement has been granted and is comprised of 10 blocks located 250 kms south of Kalgoorlie and 90 kms north of the port city of Esperance, about 700 kms east of Perth, along the Coolgardie-Esperance. The project is at the southern end of Wiluna-Norsman fault zone, along the periphery of the Yilgarn craton granites. Regionally, lithium mineralization is found in small scale pegmatite swarms along north-south trending faults, including the Buldania and Mt. Dean lithium occurrences. On this tenement, previously mapped splays off the main north-south fault zone will be prospected for lithium-bearing pegmatites.

#### Tenement E77/2817 (Moorine)

This tenement has been granted and is comprised of 8 blocks located 400 kms east of Perth and 20 kms south of Southern Cross, near the Great Eastern highway. The project is located within the Yilgarn craton granites, centred on a northwest trending fault structure similar to the Mt. Holland lithium project and on strike with the Mt. Hollenton pegmatite. At the south end of this district is Galaxy Resource's Mt. Cattlin lithium deposit.

#### Summary of Terms of the Agreement:

- The Company extended its LOI until June 15, 2023 to carry out a technical review and preliminary exploration work on the tenements;
- Provided that the Company expends a total of A\$100,000 by June 15, 2023, (completed) it shall have the right to acquire a 65% interest in the tenements by entering into a joint venture with Western Explorers. To earn its interest, the Company must contribute A\$1,000,000 over a period of two years for exploration and maintenance of the tenements;
- After Majestic has earned 65% interest in the joint venture, both parties shall contribute in cash for further exploration and exploitation in proportion to its ownership interest. If a Party does not contribute, then the other Party may subscribe for and contribute, in which case the ownership interest of the non-contributing Party may be diluted.

#### **QUALIFIED PERSON**

Stephen Kenwood, President and CEO of Majestic, is the Company's QP as defined by National Instrument 43-101 and is the non-independent QP that has read and approved the technical information contained in this MD&A.

Mill recovery	95%	96%	95%	95%
Gold produced (ozs)	8,647	4,125	26,116	10,979
Gold realized net of smelting fees (ozs)	7,992	3,611	23,931	9,963
SJG Underground Mine				
Tonnes mined	22,550	-	67,266	8,092
Tonnes milled	22,550	-	67,266	8,092
Head grade (g/t)	1.69	-	1.69	1.70
Mill recovery	98%	-	98%	98%
Gold produced (ozs)	1,206	-	3,601	433
Gold realized net of smelting fees (ozs)	1,097	-	3,299	398
Total Songjiagou Gold Mines				
Tonnes mined	495,709	187,164	1,474,048	429,874
Tonnes milled	494,020	203,182	1,494,696	636,060
Head grade (g/t)	0.64	0.67	0.64	0.59
Mill recovery	95%	96%	96%	95%
Gold produced (ozs)	9,853	4,125		11,412
Gold realized net of smelting fees (ozs)	9,089	3,611	27,230	10,361

Gold production was 9,853 ounces for the third quarter of FY2022, from 494,020 tonnes of ore milled with an average grade of 0.64 g/t and a 95% recovery rate, compared to 4,125 ounces produced, from 203,182 tonnes milled with an average grade of 0.67 g/t and a 96% recovery rate, for the FY2021 comparative quarter.

Gold production was 29,717 ounces for the nine-month period ended September 30, 2022, from 1,494,696 tonnes of ore milled with an average grade of 0.64 g/t and a 96% recovery rate, compared to 11,412 ounces produced, from 636,060 tonnes milled with an average grade of 0.59 g/t and a 95% recovery rate, for the FY2021 comparative period.

In FY2021, gold production was lower due to the suspension of mining operations in February 2021, with operations not resuming until August 2021 at the SJG Open-Pit Mine and December 2021at the SJG Underground Mine. Mining operations were suspended by the Shandong Provincial government, pending cautionary safety inspections ordered, following two mining accidents occurring in the region. During the temporary suspension, the Company was able to periodically process low-grade ore from its stockpile, but due to its lower grade and limited quantity available, the Company was not able to maintain its previous gold production levels.

#### **Gold Revenue**

	Thre	e months ende	ed S	eptember 30,	Nine	months ended	d Se	eptember 30,
		2022		2021		2022		2021
Gold								
Ounces sold		9,024		5,206		27,291		13,136
Average realized price (\$/oz)	\$	1,747	\$	1,854	\$	1,802	\$	1,857
Revenues								
Gold	\$	15,762,546	\$	9,653,844	\$	49,168,207	\$	24,399,669

Gold revenue for the third quarter of FY2022 was \$15.8 million, from the sale of 9,024 ounces, at an average realized gold price of \$1,747 per ounce, compared to gold sales revenue of \$9.7 million for the FY2021 comparative quarter, from the sale of 5,206 ounces, at an average realized gold price of \$1,854 per ounce.

Gold revenue for the nine-month period ended September 30, 2022 was \$49.2 million, from the sale of 27,291 ounces, at an average realized gold price of \$1,802 per ounce, compared to gold sales revenue of \$24.4 million for the FY2021 comparative period, from the sale of 13,136 ounces, at an average realized gold price of \$1,857 per ounce.

#### **Cost of Sales**

	Т	hree months er	September 30,	ı	Nine months ended September 30,			
		2022	2021		2022		2021	
Ounces sold		9,024		5,206		27,291		13,136
Per ounce of gold sold <sup>(1)</sup>								
Cash costs	\$	580	\$	693	\$	629	\$	717
Production costs		763		737		816		893
Cost of Goods Sold								
Total cash costs	\$	5,234,768	\$	3,606,423	\$	17,172,736	\$	9,413,129
Total production costs		6,885,281		3,838,688		22,263,646		11,727,052

<sup>(1)</sup> See "Additional Non-IFRS Financial Measures" on pages 15-17.

Cash costs were \$580 per ounce for the third quarter of FY2022, compared to \$693 for the FY2021 comparative quarter. Production costs were \$763 per ounce for the third quarter of FY2022, compared to \$737 per ounce for the FY2021 comparative quarter.

Cash costs were \$629 per ounce for the nine-month period ended September 30, 2022, compared to \$717 for the FY2021 comparative period. Production costs were \$816 per ounce for the nine-month period ended September 30, 2022, compared to \$893 per ounce for the FY2021 comparative period.

The Company continues to work in maintaining its average cash costs below \$675 per ounce.

#### Other Items

The Company's general and administrative expenses ("G&A") expenditures were \$1,236,208 for the third quarter of FY2022, an increase of 13% from \$1,098,036 for the FY2021 comparative quarter.

The Company's general and administrative expenses ("G&A") expenditures were \$3,978,348 for the ninemonth period ended September 30, 2022, an increase of 35% from \$2,942,292 for the FY2021 comparative period.

The significant variances for the nine months ended September 30, 2022 and 2021 are as follows:

Financial advisory expenditures for the nine-month period ended September 30, 2022 were \$834,296 (FY2021 - \$79,353). The increase in financial advisory fees for the current period was due to the completion and filing of the HKEX listing application. The Company expects these costs to continue to be higher in 2022 over prior year periods as the Company continues to work through the HKEX listing application due diligence process;

Research and development expenditures for the nine-month period ended September 30, 2022 were \$663,260 (FY2021 - \$624,445). These costs are related to the Company's initiative in developing and implementing new technologies in its mining operations, with the expectation of improving its recovery rates, operational efficiencies and reducing the environmental impact of its processing and mining activities.

The remaining G&A expenses recorded in the statement of operations reflect the normal corporate business cycle. The Company strives to provide efficient and cost-effective administrative support to management's ongoing efforts to monitor production costs, and increase shareholder value.

The details of the changes in the consolidated G&A for the three months and nine months ended September 30, 2022 and 2021 are as follows:

	Th	ree months en	ded :	September 30,	Nine months ended September 30,			
		2022		2021		2022		2021
Consulting and management fees	\$	172,178	\$	169,221	\$	601,747	\$	467,799
Financial advisory		141,189		5,900		834,296		79,353
Depreciation		107,958		221,906		312,182		285,534
Office and general		352,642		178,098		666,903		456,846
Professional fees		7,432		5,250		51,639		51,318
Research and development		157,251		182,796		663,260		624,445
Salaries		210,152		214,369		551,763		617,094
Shareholder communications		4,496		6,526		35,496		30,479
Travel		82,910		113,970		261,062		329,424
Total	\$	1,236,208	\$	1,098,036	\$	3,978,348	\$	2,942,292

Exploration and evaluation expenditures for the nine months ended September 30, 2022 and 2021, were \$36,514 and \$156,711, respectively. These costs are related to the Company's preliminary exploration work on the Western Australian tenements held under a LOI.

The details of the changes in the consolidated finance expense for the three months and nine months ended September 30, 2022 and 2021 are as follows:

	Three	months ende	ed Se	eptember 30,	Nine	otember 30,		
		2022		2021		2022		2021
Interest expenses and finances charges								
for loans payable	\$	20,334	\$	125,411	\$	86,640	\$	348,786
Interest expense for leases		1,134		3,114		3,461		3,910
Interest expense for other long-term		48,064		17,594		150,442		53,679
Accretion of asset retirement obligation		23,942		27,585		74,941		82,783
Total	\$	93,474	\$	173,704	\$	315,484	\$	489,158

#### **SUMMARY OF QUARTERLY RESULTS**

The financial results for each of the eight most recently completed quarters are summarized below:

	September 30, 2022	June 30, 2022	March 31, 2022	December 31, 2021
Revenues	\$15,762,546	\$16,438,676	\$16,966,985	\$14,045,604
Net income (loss)	\$5,135,207	\$5,844,799	\$5,417,860	(\$146,728)
Income per share	0.00	0.01	0.01	(0.00)
	September 30, 2021	June 30, 2021	March 31, 2021	December 31, 2020
Revenues	\$9,653,844	\$8,975,339	\$5,770,486	\$14,962,881
Net income	\$1,841,962	\$1,315,785	\$4,706,643	\$3,789,196
Income per share	0.00	0.00	0.01	\$0.01

Significant variations in revenues between periods are primarily due to variances in gold sales, the volatility of gold prices as well as the temporary suspension of operations during fiscal 2021.

Significant variations in the net income between quarters are primarily due to the volatility of gold prices and variances in gold sales, production costs, G&A expenses. During the first quarter of 2021, the Company had a one-time tax recovery of \$2,822,027 (RMB 18,355,875) related to a retrospective change its corporate tax rate beginning in FY2020 to a rate of 15% from 25%. During the second and third quarters of 2021, mining operations were temporarily suspended, which impacted both the Company's revenue and net income. The net loss for the fourth quarter of 2021 was due to \$5.8 million of income tax expense recognized during the quarter.

#### **LIQUIDITY**

The Company's liquidity requirements arise principally from the need for working capital to finance expansion of its mining and processing operations. The Company's principal sources of funds have been proceeds from the borrowing from various financial institutions in China, equity financings, and cash generated from operations. The Company's liquidity depends primarily on its ability to generate cash flow from its operations and to obtain external financing to meet its debt obligations as they become due, as well as the Company's future operating and capital expenditure requirements.

At September 30, 2022, the Company had cash of \$51.5 million (December 31, 2021 - \$34.9 million).

The Company had working capital of \$29.6 million at September 30, 2022, improving from a working capital of \$14.1 million at December 31, 2021, of which the key components included:

- Cash was \$51.5 million; up \$16.7 million from the end of fiscal 2021;
- Receivable was \$0.09 million; down \$0.03 from the end of fiscal 2021;
- Deposits and prepaid expenses was \$1 million, up \$0.4 million from the end of fiscal 2021;
- Inventory was \$2.6 million, down \$0.5 million from the end of fiscal 2021
- Accounts payable and accrued liabilities was \$10 million, down \$1.8 million from the end of fiscal 2021;
- Income tax payable was \$10.4 million, up \$3.3 million from the end of fiscal 2021;

Majestic began fiscal 2022, with \$34.9 million in cash. During the nine months ended September 30, 2022, the Company generated \$25 million from the Company's operating activities, net of working capital changes, expended \$4.6 million in investing activities and \$0.2 million in financing activities, and had a foreign exchange loss of \$3.6 million, to end at September 30, 2022 with \$51.5 million in cash.

Management considers its operating cash flows to be sufficient for the next twelve months in meeting its planned development, operational activities, and its current outstanding debts. The Company has been

### Majestic Gold Corp.

### **Management's Discussion and Analysis**

### For The Nine Months Ended September 30, 2022

achieving consistent profits from its operations and with operations now approved to resume following the successful completion of the cautionary safety inspections, the Company's anticipates gold production, gold revenues and profits will to continue to grow from its 2021 levels. The Company expects growth through increased production under the expanded mining permit and higher head grades being achieved in the open pit.

#### **CAPITAL RESOURCES**

As at the date of this MD&A, other than as described herein and in the Financial Report, the Company has no other arrangements for sources of financing.

In management's view, given the nature of the Company's operations, which consists of exploration, mining and evaluation of mining properties, the most relevant financial information relates primarily to current liquidity, solvency and planned property expenditures. The Company's financial success will be dependent upon the extent to which it can discover mineralization and the economic viability of developing its properties. Such development may take years to complete and the amount of resulting income, if any, is difficult to determine. The sales value of any minerals discovered by the Company is largely dependent upon factors beyond the Company's control, including the market value of the metals to be produced.

#### **NORMAL COURSE ISSUER BID**

On June 3, 2021, the Company commenced its Normal Course Issuer Bid (NCIB") under which the Company may purchase, over a 12-month period, up to 5% of the issued common shares. At June 2, 2022, the Company has purchased 5,062,000 of the eligible 52,386,319 common shares at a cost of \$242,530 during the 12-month period.

#### **OUTSTANDING SHARE DATA AS AT THE DATE OF THIS MD&A**

Authorized: an unlimited number of common shares without par value.	Common shares issued and outstanding
Outstanding at September 30, 2022 and at the date of this MD&A	1,042,664,381

#### TRANSACTIONS WITH RELATED PARTIES

#### Related party transactions

The Company incurred the following related party transactions during the three months and nine months ended September 30, 2022 and 2021:

	Three months ended September 30, I			, Nine months ended September 3				
		2022		2021		2022		2021
Consulting fees charged by companies								
controlled by directors and officers of								
the Company - include key management								
personnel compensation	\$	157,396	\$	108,285	\$	554,511	\$	410,719

#### Compensation of key management personnel

The remuneration of directors and other members of key management personnel, which are included in the amounts disclosed above, were as follows:

	Three i	Three months ended September 30, Nine months ended September 30,									
		2022 2021 2022 202									
Short-term employee								_			
benefits-management fees	\$	19,726	\$	49,997	\$	180,111	\$	151,049			
Director fees		3,384		3,572		18,322		10,790			
	\$	23,110	\$	53,569	\$	198,433	\$	161,839			

Key management included the Company's directors, executive officers and senior management. These transactions occurred in the normal course of operations and are measured at their exchange amounts, which is the amount of consideration established and agreed to by the parties.

#### NEW STANDARDS, INTERPRETATIONS AND AMENDMENTS ISSUED BUT NOT YET APPLIED

A number of new standards, amendments to standards and interpretations are issued but not yet applied as of September 30, 2022, in preparing these consolidated financial statements.

#### IAS 16 Property, Plant and Equipment

The IASB issued an amendment to IAS 16, Property, Plant and Equipment to prohibit the deducting from property, plant and equipment amounts received from selling items produced while preparing an asset for its intended use. Instead, sales proceeds and its related costs must be recognized in profit or loss. The amendment will require companies to distinguish between costs associated with producing and selling items before the item of property, plant and equipment is available for use and costs associated with making the item of property, plant and equipment available for its intended use. The amendment is effective for annual periods beginning on or after January 1, 2022, with earlier application permitted. The amendment is not currently applicable.

#### IAS 1. Presentation of Financial Statements

The IASB issued an amendment to IAS 1, Presentation of Financial Statements to clarify one of the requirements under the standard for classifying a liability as non-current in nature, specifically the requirement for an entity to have the right to defer settlement of the liability for at least 12 months after the reporting period. The amendment includes: (i) specifying that an entity's right to defer settlement must exist at the end of the reporting period; (ii) clarifying that classification is unaffected by management's intentions or expectations about whether the entity will exercise its right to defer settlement; (iii) clarifying how lending conditions affect classification; and (iv) clarifying requirements for classifying liabilities an entity will or may settle by issuing its own equity instruments. An assessment will be performed prior to the effective date of January 1, 2023 to determine the impact to the Company's financial statements.

#### **COMMITMENT AND CONTINGENCIES**

Commitments and contingencies include principal and interest payments of Company's bank loans, expenditure commitments on its mineral properties, and future aggregate minimum operating lease payments required under the operating leases as described in the Notes 12, 14, and 15 to the Financial Report.

#### **OFF-BALANCE SHEET ARRANGEMENTS**

The Company from time to time enters into various off-balance sheet arrangements in the ordinary course of business. At September 30, 2022, the Company does not have any off-balance sheet arrangements.

#### FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

#### **Financial instruments**

Financial assets are recognized at fair value and are subsequently classified and measured at: (i) amortized cost; (ii) fair value through other comprehensive income ("FVOCI"); or (iii) fair value through profit or loss ("FVTPL"). The classification of financial assets is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. A financial asset is measured at fair value net of transaction costs that are directly attributable to its acquisition except for financial assets at FVTPL where transaction costs are expensed. All financial assets not classified and measured at amortized cost or FVOCI are measured at FVTPL. Equity instrument that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. The Company classifies its cash, receivables, restricted cash and reclamation deposits at amortized cost.

The Company derecognizes financial assets only when the contractual rights to cash flows from the financial assets expire, or when it transfers the financial assets and substantially all of the associated risks and rewards of ownership to another entity.

#### Impairment of financial assets

IFRS 9 uses the expected credit loss ("ECL") model. The credit loss model groups receivables based on similar credit risk characteristics and days past due in order to estimate bad debts. The ECL model applies to the Company's receivables.

An 'expected credit loss' impairment model applies which requires a loss allowance to be recognized based on expected credit losses. The estimated present value of future cash flows associated with the asset is determined and an impairment loss is recognized for the difference between this amount and the carrying amount as follows: the carrying amount of the asset is reduced to estimated present value of the future cash flows associated with the asset, discounted at the financial asset's original effective interest rate, either directly or through the use of an allowance account and the resulting loss is recognized in profit or loss for the period.

In a subsequent period, if the amount of the impairment loss related to financial assets measured at amortized cost decreases, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed, but not exceeding what the amortized cost would have been had the impairment not been recognized.

#### Financial liabilities

Financial liabilities are designated as either: (i) fair value through profit or loss; or (ii) amortized cost. All financial liabilities are classified and subsequently measured at amortized cost except for financial liabilities at FVTPL. The classification determines the method by which the financial liabilities are carried on the statement of financial position subsequent to inception and how changes in value are recorded. The Company classifies its accounts payable, loans payable, security for financial guarantee and other long-term liabilities at amortized cost.

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognizes a financial liability when the terms of the liability are modified such that the terms and / or cash flows of the modified instrument are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

Gains and losses on derecognition are generally recognized in profit or loss.

#### Fair value

The Company provides disclosures that enable users to evaluate (a) the significance of financial instruments for the entity's financial position and performance; and (b) the nature and extent of risks arising from financial instruments to which the entity is exposed during the period and at the date of the statement of financial position, and how the entity manages these risks. The Company provides information about its financial instruments measured at fair value at one of three levels according to the relative reliability of the inputs used to estimate the fair value:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e.: as prices) or indirectly (i.e.: derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data unobservable inputs.

Financial assets	Level	S	eptember 30, 2022	December 31, 2021
Cash	1	\$	51,518,792	\$ 34,867,831
Reclamation deposits	1		2,476,531	2,453,906
Receivables (1)	2		82,965	109,192
Other long-term assets	2		660,358	620,168
Total		\$	54,738,646	\$ 38,051,097

<sup>(1)</sup> Receivables exclude sales and income tax receivables.

Financial liabilities	Level	S	eptember 30, 2022	December 31, 2021
Accounts payable and accrued liabilities	2	\$	9,957,433	\$ 11,743,804
Interest-bearing bank borrowings	2		4,225,471	4,705,365
Other long-term liabilities	2		6,239,897	6,931,826
Total		\$	20,422,801	\$ 23,380,995

#### **Risk Management**

#### **Credit Risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash and reclamation deposits held in bank accounts. The majority of cash is deposited in bank accounts held with major banks in Canada and China. The credit risk associated with cash held in Canada is reduced by management ensuring that the Company uses a major Canadian financial institution with strong investment grade ratings by a primary ratings agency. The credit risk associated with cash held in China is reduced, but not fully mitigated, by management using a financial institution that is operated by the Government of China.

#### **Liquidity Risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company plans to ensure that there is sufficient capital in order to meet short-term business requirements, after taking into account the Company's holdings of cash. The Company's cash is invested in interest bearing accounts which are available on demand. Management believes the Company has sufficient cash on hand to finance operations for the next twelve months. The Company's accounts payable and accrued liabilities are generally due on demand. The maturity of the Company's loans are disclosed in Note 12 of the Financial Report. The following summarizes the undiscounted amount of the remaining contractual maturities of the Company's financial liabilities.

		September 30, 2022					December 31, 2021				
	Within a year		2-5 years Over five years				Total	Total			
Accounts payable and accrued liabilities	\$ 9,957,433	\$	-	\$	-	\$	9,957,433	\$	11,743,804		
Loans	4,225,471		-		-		4,225,471		4,705,365		
Other long-term liabilities	1,063,778		4,215,451		1,012,169		6,291,398		7,982,600		
Total	\$ 15,246,682	\$	4,215,451	\$	1,012,169	\$	20,474,302	\$	24,431,769		

#### **Industry Risk**

The Company is a mining company with a property and mining operations in China. Its mining activities involve numerous inherent risks. The Company is subject to various financial, equities markets, operational and political risks that could significantly affect its operations and cash flows. These risks include changes in local laws affecting the mining industry, a decline in the price of commodities, uncertainties inherent in estimating mineral resources and fluctuations in the foreign currencies against the US dollar. The Company does not use derivatives or hedging to mitigate the risk of changes in the price of gold or currency fluctuations.

The Company's business is highly dependent on the price of gold and venture capital markets, which are impacted by volatility factors the Company cannot control. A decrease in the price of gold could adversely affect the Company's financial condition, results of operations and cash flows. Lower gold prices may result in asset impairment, write-downs of mineral property carrying values and limitations in access to capital. The Company operates in China and is exposed to the laws governing the mining industry in China. The Chinese government is currently supportive of the mining industry but there is uncertainty in future changes to government policies and regulations including taxation, repatriation of profits, restrictions on production, export controls, environmental compliance and expropriation. These factors could adversely affect the Company's exploration efforts and production plans.

The Company's property is located in an area that can experience severe winter weather conditions which could adversely affect mining operations. In addition, the Company is subject to changes in environmental laws and regulations that may result in unexpected costs.

#### **Market Risk**

The significant market risks to which the Company is exposed are interest rate risk, currency risk and other commodity price risk. These are discussed further below:

#### Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company's cash consists of cash and reclamation deposits held in bank accounts that earn interest at variable interest rates. The Company's loans payable accrues interest at fixed rates. Due to the short-term nature of these financial instruments, fluctuations in market rates do not have a significant impact on the estimated fair value as of September 30, 2022.

#### Currency Risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to currency risk to the extent expenditures incurred or funds received and balances maintained by the Company are denominated in currencies other than the functional currency of the entity completing the transaction or holding the funds. The Company does not manage currency risks through hedging or other currency-based derivatives. The Company and its subsidiaries do not have significant transactions or hold significant cash denominated in currencies other than their functional currencies. Therefore, this risk is considered minimal.

#### **DIRECTORS**

Certain directors of the Company are also directors, officers and/or shareholders of other companies that are similarly engaged in the business of acquiring, developing and exploring mineral properties. Such associations may give rise to conflicts of interest from time to time. The directors of the Company are required to act in good faith with a view to the best interests of the Company and to disclose any interest, which they may have, in any project opportunity of the Company. If a conflict of interest arises at a meeting of the board of directors, any directors in a conflict will disclose their interests and abstain from voting in such matters. In determining whether or not the Company will participate in any project or opportunity, the directors will primarily consider the degree of risk to which the Company may be exposed and its financial position at the time.

#### MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL INFORMATION

The Company's financial statements and the other financial information included in this management report are the responsibility of the Company's management, and have been examined and approved by the Audit Committee of the Board of Directors. The financial statements were prepared by management in accordance with IFRS and include certain amounts based on management's best estimates using careful judgment. The selection of accounting principles and methods is management's responsibility.

Management recognizes its responsibility for conducting the Company's affairs in a manner to comply with the requirements of applicable laws and established financial standards and principles, and for maintaining proper standards of conduct in its activities.

The Board of Directors supervises the financial statements and other financial information through its audit committee, which is comprised of a majority of independent directors.

#### **RISKS AND UNCERTAINTIES**

Risks and uncertainties information concerning risks specific to the Company and its industry, which are required to be included in this MD&A are incorporated by reference to the Company's annual MD&A for the year ended December 31, 2021.

#### ADDITIONAL NON-IFRS FINANCIAL MEASURES

The Company has included additional financial performance measures in this MD&A, such as adjusted EBITDA, total cash costs, total production costs and AISC. The Company reports total cash costs, production costs, and AISC on a per gold ounce sold basis. In the gold mining industry, this is a common performance measure but does not have any standardized meaning. The Company believes that, in addition to conventional measures prepared in accordance with IFRS, certain investors use this information to evaluate the Company's performance and ability to generate cash flow. Accordingly, it is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS.

"Adjusted EBITDA" represents earnings before interest (including non-cash accretion of financial obligations), income taxes and depreciation and depletion ("EBITDA"), adjusted to exclude impairment charges, allowance for doubtful accounts, gains or losses on asset dispositions, share-based compensation, gains/losses on financial instruments and foreign exchange gains/losses.

"Total cash costs per ounce" is calculated from operation's cash costs, which include resource taxes, and dividing the sum by the number of gold ounces sold. Operations cash costs include mining, milling, smelter and other direct costs.

"Total production costs per ounce" are calculated by adding depreciation and depletion to total cash costs and dividing the sum by the number of ounces of gold sold.

"All-in sustaining cash costs per ounce" ("AISC") is a performance measure that reflects the expenditures that are required to produce an ounce of gold from current operations. While there is no standardized meaning of the measure across the industry, the Company's definition is derived from the definition, as set out by the World Gold Council in its guidance dated June 27, 2013 and November 16, 2018, respectively. The World Gold Council is a non-regulatory, non-profit organization established in 1987 whose members include global senior mining companies. The Company believes that this measure is useful to external users in assessing operating performance and the ability to generate free cash flow from operations.

Majestic defines AISC as the sum of Total Cash Costs per ounce (as defined above) and adds the sum of G&A, share-based compensation, sustaining capital expenditures and certain exploration and evaluation costs, all divided by the number of ounces sold. As this measure seeks to reflect the full cost of gold production from current operations, new project capital is not included in the calculation of all-in sustaining costs per ounce. Additionally, certain other cash expenditures, including income tax payments and financing costs, are not included.

The following table provides details of the primary components of adjusted EBITDA:

	Three months ended September 30, Nine months ended September 3								
		2022		2021		2022		2021	
Revenue	\$	15,762,546	\$	9,653,844	\$	49,168,207	\$	24,399,669

	\$	1,736,355	\$ 1,817,454	\$	4,272,196	\$	6,022,644

#### FORWARD-LOOKING STATEMENTS

This MD&A contains or incorporates by reference "forward-looking statements" within the meaning of applicable Canadian securities legislation. Except for statements of historical fact relating to the Company. information contained herein constitutes forward-looking statements, including any information as to the Company's strategy, plans or future financial or operating performance. Forward-looking statements are characterized by words such as "plan", "expect", "budget", "target", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. Forward-looking statements are based on the opinions, assumptions and estimates of management considered reasonable at the date the statements are made, and are inherently subject to a variety of risks and uncertainties and other known and unknown factors that could cause actual events or results to differ materially from those projected in the forward-looking statements. These factors include the impact of general business and economic conditions, global liquidity and credit availability on the timing of cash flows and the values of assets and liabilities based on projected future conditions, fluctuating gold prices, currency exchange rates, possible variations in ore grade or recovery rates, changes in accounting policies, changes in the Company's corporate resources, changes in project parameters as plans continue to be refined, changes in project development, construction, production and commissioning time frames, risk related to joint venture operations, the possibility of project cost overruns or unanticipated costs and expenses, higher prices for fuel, steel, power, labor and other consumables contributing to higher costs and general risks of the mining industry, failure of plant, equipment or processes to operate as anticipated, unexpected changes in mine life, unanticipated results of future studies, seasonality and unanticipated weather changes, costs and timing of the development of new deposits, success of exploration activities, permitting time lines, government regulation of mining operations, environmental risks, unanticipated reclamation expenses, title disputes or claims, limitations on insurance coverage and timing and possible outcome of pending litigation and labour disputes, as well as those risk factors discussed or referred to in the Company's Management's Discussion and Analysis for the year ended December 31, 2021, filed with the applicable securities regulatory authorities and available at SEDAR www.sedar.com. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The Company undertakes no obligation to update forward-looking statements if circumstances or management's estimates, assumptions or opinions should change, except as required by applicable law. The reader is cautioned not to place undue reliance on forward-looking statements. The forward-looking information contained herein is presented for the purpose of assisting investors in understanding the Company's expected financial and operational performance and results as at and for the periods ended on the dates presented in the Company's plans and objectives, and may not be appropriate for other purposes.
